# StudioPortraits

Studio Portraits are one of our specialties. Each of our portraits is created especially for the individual being photographed. A typical portrait sitting takes approximately one hour to complete. We suggest that you consider bringing several changes of attire to add variety to the images that we will create for you. A portrait creation fee of \$45.00 is due when photographed. Custom portraits are priced below and a minimum deposit of 50% is required when ordering. Standard retouching is included in prices listed. Extensive digital artwork can be quoted upon request. All prints larger than 11x14 inches are mounted on professional mounting board unless otherwise instructed. In addition to Studio Portraits, we are also available to provide photography on location in your home, place of business, or in any local outdoor setting in our normal service area, subject to weather and availability. The additional fee for location portraiture is \$105.00.

## INDIVIDUAL CUSTOM PRINTED PORTRAITS
